# DANDY PALLET

Dear gentlemen:

Officials and storage export and procurement

Greetings after.....,

We are honored that we offer you our services and is one of the biggest .. companies specialized in all integrated logistics services. (Customs clearance and shipping, land, sea and air fright.)..and import and export, and requirements. For factories and companies of major equipment, production lines and raw materials. As shown in the attached file, which contains all of the major companies and government activities that we are dealing with and Certificates Obtained by our company in that field

Product innovation is supervised by an Egyptian company sincere 100% which is one of the most successful solutions to the problems of logistics, storage and export,.....Dandy pallet, which is a leap in the field of logistics solutions. And is provided for the companies in each of (transport & storage & cost & time ) as well as to many other benefits

We are pleased to know you that our company is the exclusive distributor factory in Egypt and the world as a private intellectual property rights in our company

## In the case of using the pallet its advantages are as following :-

\*.. Beautiful form for export to all over the world, ease of use and the possibility of choice of color and design and write the name of the company on the pallet not only the manufacturing pallet only where the manufacture cages display hinge and pallet proportions in all forms and multiple designs to comply with all storage systems and mobilization

بعض الاشكال والنماذج للبالطة

## storage...&.. trucking

**\*.. The medium-saving in price between the plastic or wood pallets is used in cargo storage, where it is lightweight and easy to store and is stored in a manner to provide overlap in storage areas by 1:8 for each pallet of any other type**

**\*.. Bear all environmental factors such as heat as well as extreme cold, with materials soundproofed to prevent interaction with any chemical or pharmaceutical or food in all types of companies, so we export frozen meat and poultry, different countries**

**\*.. Provides a lot of cost, where the long-life and cannot withstand the maximum operating conditions, and strong and solid, in the case of used within production halls**

**\*.. The medium-saving in price between the plastic or wood pallets is used in cargo storage, where it is lightweight and easy to store and is stored in a manner to provide overlap in storage areas by 1:8 for each pallet of any other type**

**\*.. fully exempted from the Agriculture fumigation, which provides the time and cost of the fees and the storage and avoid risks of insects and re-export containers, as well as the fees and fines entering the container yard, where it offers listing is detected on the port, leading to provide about \$70 dollars entry fee disclosure and shows Square. In the case of the export of wood pallet must enter the arena and pay fees, such as port of East Port Said, as well as in the case of exporting plastic pallets to achieve the same purpose, the cost would be very high**

**\*.. The pallet weights 3 : 1 compared to any other pallet plastic or wooden pallet, making it provided for in air freight operations**

**\*.. Provides a lot of cost, where the long-life and cannot withstand the maximum operating conditions, and strong and solid, in the case of used within production halls**

**\*.. it is easy to control in the form of design and dimensions of the pallet so suitable for all goods, where we are working with cement companies and petrochemicals and medicines, food products and electric tools are designed to fit with weight the pallet sizes devices leverages the container**

***Finally, we are happy to deal with you and offer facilities and gifts in the case of a request for a quantity of those pallets***
