

**Our business emphasizes excellence through:**

- Ideal environmental conditions: Egypt "The Land of the Pharaohs," provides fertile soil that is suitable for cultivation year-around, and is geographically situated to extract the benefits of the Nile River.
- Our factory's location serves as a competitive advantage for our production. It is located in the middle of vast farms , where vegetables are peeled, washed, blanched and dried at record speed; however, every stage of the dehydration process is closely assessed to ensure premium quality. In addition, our 4,000-ton, refrigerated E.A. warehouses ensure that our products are always fresh and stored in ideal conditions.
- We aspire to be the best in the eyes of our consumers, employees and vendors; in order to remain so, we ensure that we deliver top-quality products and maintain professionalism in all our dealings and transactions.
- We maintain the highest possible standard while also offering competitive prices.

**INTRODUCTION**

Mr. Essam Adly established the E.A. refrigerated warehouse in 1979 and launched "Silva for Food Industry" in 2008. Through his experience, he was able to provide a premium-quality brand. The careful selection of skilled workers and production engineers guarantees a permanently differentiated level of production that is on par with the highest international standards. Silva exercises strict controls to ensure products are free of pesticide, filaments or insects; the company is ISO 22000:2005 and OHAS 18001:2007 certified.

- Fresh, frozen broad beans.
- Bright green color.
- High source of Vitamin-C and Protein.
- No additives.

- Fresh, frozen double-peeled broad beans.
- Bright green color.
- High source of Vitamin-C and Protein.
- No additives.

- |       |            |
|-------|------------|
| Extra | 1.5-2.5cm  |
| O     | 2.5-3.5cm  |
| I     | 3.5-4.5cm  |
| II    | 4.5- 5.5cm |

Silva provides the highest quality taro by ensuring its proper selection before cutting, blanching and freezing. We also ensure the product is cut with precision and in equal sections.

- A mixture of green beans, green peas and carrots.
- Available in various proportions.

- We provide two kinds of green beans:
- whole green beans.
  - cut green beans.

An Egyptian vegetable, consumed since the Pharaonic Age, molokhia is dark green with a unique taste and texture. Two different packaging methods are available: whole leaves or minced.

We ensure that sorted peas are fresh and free of discoloration or starch in order to guarantee the best quality. Silva also offers green peas with carrots.

Half-fried Falafel:  
 Egyptian recipe: with fava beans/broad beans.  
 Lebanese recipe: with hummus/chick peas.

We offer two types of strawberries:  
 Suzanna Strawberries and Festival Strawberries.  
 \*pesticide free.

Silva receives fresh spinach, which is blanched and frozen to maintain its natural color and taste. Two different packaging methods are available: whole leaves or minced.
