

# About Us

GB Farms was founded in 1991 by Dr Raouf Ghabbour as an addition to the family group GB Corp, a publicly traded company on the Egyptian stock exchange. Leading the Mena region in automotive manufacturing and distribution as well as financial leasing and logistics solutions.

GB FARMS owns 2000 acres of land located in Cairo Alex. desert road and specializes in growing and exporting table grapes and mangos. In addition to secondary products, such as citrus, figs, and fresh vegetables.

The company's continuous investment in production technologies, our supply chain, our people, and our community; has consolidated our position in

both the local and international markets.

Our company's strong commitment to our values and corporate culture can be seen in every stage of our operation, from preserving our land, air, and water to executing the different I requirements of each customer, while protecting and developing our workforce and community.

# Our Produce

# Grapes

We can't be prouder of our grape vineyards. Covering an area of 650 acres, our grape production has reached more than 5,000 tons,

Alongside our team of highly skilled technical engineers, the assistance of world class production, post-harvest consultants, and our fully dedicated management, our

grape exports have gained enormous success throughout the years.

The growing demand for our grape exports drove us to expand our plantation and focus on varietal development to meet the new market demands. Hence our initiative to have the new 200 acres that are already in our pipelines to be fully complete by 2025.

# White Seedless

Sweet Globe™ | Ivory™ | Timpson™

Prime | Sugraone

# Red Seedless

Sweet Celebration™ | Allison™ | Flame | Starlight

Firestar | Crimson | Autumn Pearl

# Black Seedless

Autumn Royal | Early Pearl

---

# Mango

The sweet summer taste of our mango is what makes us so passionate about our orchards. Growing more than 25 varieties since 1991, including the famous Kent and Keitt, Ostein, Naomi, and Maya, our mango field has reached 600 acres yielding more than 4000 tons. Deeming us one of the largest mango farms in the country.

What makes GB Mango stands out in the local and international market is our continuous research and development to excel in the plantation, pruning, harvesting and post-harvesting treatment of our produce to ensure a healthy strong mango in the hand of our customers.

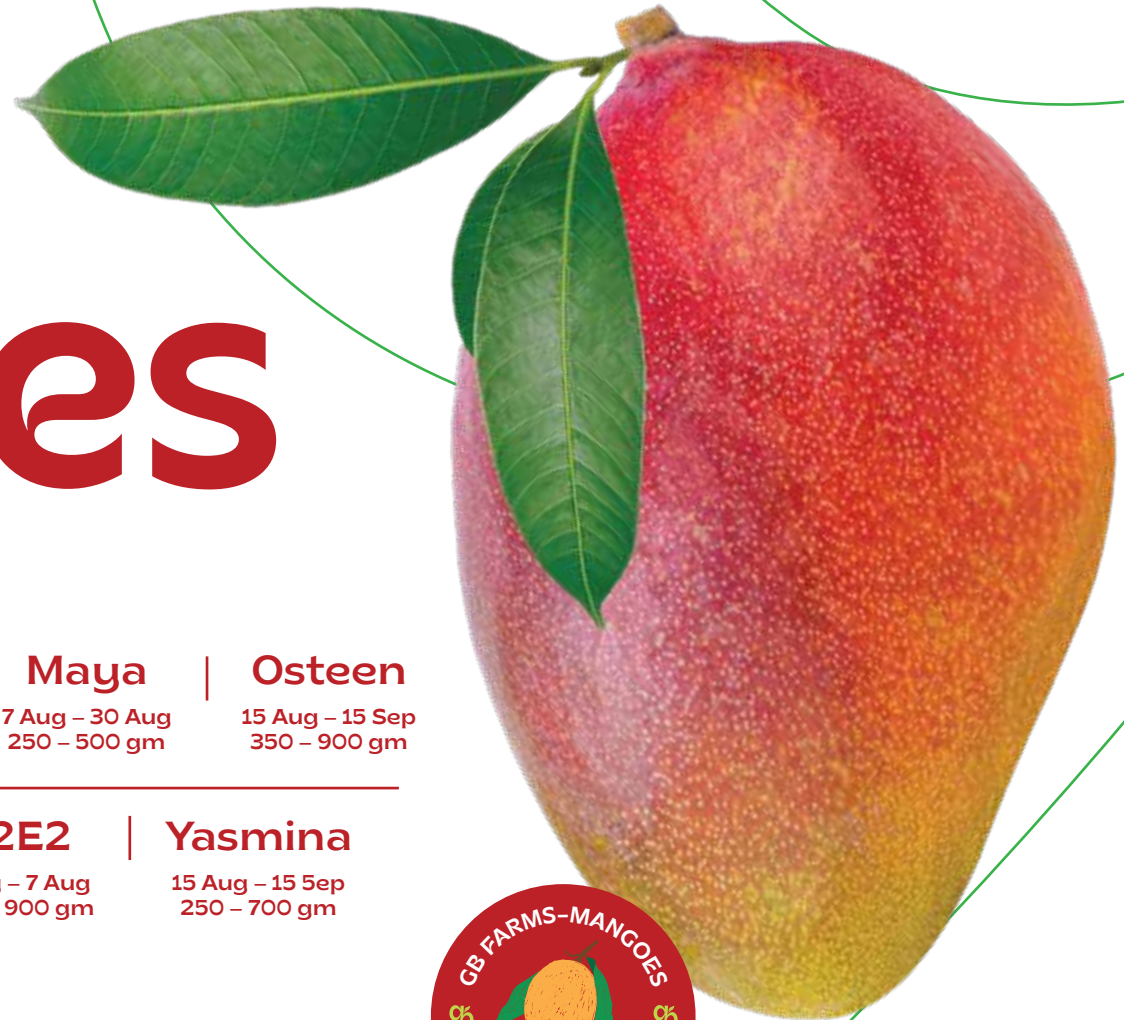

Mastering sea shipments over the years, we became one of the biggest mango exporters in Egypt.

Our post-harvest treatment enables us to send our mangoes overseas for over 2 weeks with intact fruit on arrival. A goal most mango exporters have failed to achieve by witness of most of our clients.

# International Varieties

<b>Keitt</b> 15 Sep – 10 Nov 350 – 1000 gm	<b>Kent</b> 5 Aug – 30 Aug 350 – 800 gm	<b>Tommy Atkins</b> 15 Jul – 7 Aug 350 – 700 gm	<b>Maya</b> 7 Aug – 30 Aug 250 – 500 gm	<b>Osteen</b> 15 Aug – 15 Sep 350 – 900 gm

Fava beans | Cucumber | Onions

# Global Presence

At GB FARMS, we believe that our success derives from making our customer's lives easier and we go

the extra mile to make sure that this is the case. Therefore, we pay great attention to the smallest

details, not only in the field but also at our packhouse.
